What do you want to get out of college?
Getting a good education needs to be your top priority. A fraternity experience can help you to succeed. You need to make sure to balance your classes with some outside interests. If leadership opportunities, good friends, sports, fun, and service to others are important to you, then you should join Alpha Sigma Phi Fraternity.

Our fraternity began at Yale University in 1845 by three visionary leaders. Our great fraternity continues today because of the commitment of all her members. The future of our fraternity rests with the leaders we select today.
