

Instructions

This questionnaire is to find out the way in which certain important events in our society affect different people. Each item consists of a pair of alternatives: letter a or b. Please select the one statement of each pair (and only one) which you more strongly believe to be the case as far as you are concerned. Be sure to select the one you actually believe to be more true rather than the none you think you should choose or the one you would like to be true. This is a measure of personal belief; obviously there are no right or wrong answers.

Do not put your name on either the questionnaire or the answer sheet.

Please answer these items carefully but do not spend too much time on any one item. Be sure to find an answer for every choice. Circle only one: a or b.

In some instances you may discover that you believe both statements or neither one. In such cases, be sure to select the one you more strongly believe to be the case as far as you are concerned. Also try to respond to each item independently when making your choice; do not be influenced by your previous choices.
